

Dear Valued Customer,

In harmony with our core values and our belief that quality is a continuous search for excellence; it is our pleasure to announce signing & executing of a turn key project with Technophar of Canada. (www.technophar.com)

By that, the lay out of our facilities will be upgraded to match the A grade GMP requirements and a new line of the most modern machines will be installed & operated.

As the related quality control procedures will become fully automated; capsules sorting will be -in process- controlled with a more precise monitoring system to eliminate any possible capsule defect.

In addition to quality measures, production capacity will get increased by 60% resulting in optimal delivery services to match customers' increasing demand for high quality capsules with the most convenient delivery schedules.

Although it is a costly project; we will continue serving you with the most possible economic prices, thus to be sure that you will find us there when needed most.

Serving you is of our great pleasure.
